Why ACARI Fleet Solutions?

EFFICIENT INSTALLATIONS

ACARI Fleet Solutions designs our products around a fast and efficient install. Our drill free applications are an Industry leading way to transform your vehicle into the ultimate work truck.

SAVE TIME AND MONEY

TIME IS MONEY! This old adage, has never been truer with the ACARI clamp on system. Out of the box and on the vehicle. When you're done, remove the application as easy as it went on. And we promise you'll notice the difference in resale value!!

FLEET FORWARD

Building your fleet has never been easier. AFS is proud to be able to offer innovative solutions using some of the top lighting manufacturers in the industry. Call our knowledgeable staff for more info on the right application for your fleet!

ACARI Fleet Solutions utilizes SoundOff Signal's premier Tri-Color lighthead, the silicone mpower 4" fascia. The mpower has innovated a data driven programmability combined with simple and streamlined installation provided by the Vi Series

R-VID Make your work zone a safer with the R-VID from ACARI-FS. We have designed a simple bolt on design to turn any tailgate into a warning light. With SoundOff 3 wire technology, the customer can tailor their R-VID to their exact needs.

R-VID™
REAR VISUAL IMPACT DETERRENT

Part#	Description
RVID-SO6-FM-*	Rear Facing SoundOff mpower 6 Lamp, Universal Flat Mounting (Drilling Required)

GVI is a grille mounted Vi Series warning light designed to easily mount without removing the front end. Drill free (in most cases) with a thin and sleek extruded housing that matches the contour of your vehicle. Get the warning power of an interior mounted lightbar in half the time!

GVI

Part#	Description
GVI-SO6-UNI-*	Front Facing SoundOff mpower 6 Lamp, Universal Flat Mounting (May Require Drilling)
GVI-SO6-HOOD-*	SoundOff mpower 6 Lamp, Universal Hood Mount

SIDE-VI, is a bed rail, roof rail, handrail lighting solution. Unlike other models the SIDE-VI is focused on bringing side warning at "Eye Level", and not down near the ground.

SIDE-VI

Part#	Description
SDVI-SO6-40-*	Driver Side SoundOff mpower 6 Lamp, Universal Flat Mounting, 40" (Drilling Required)
SPVI-SO6-40-*	Passenger Side SoundOff mpower 6 Lamp, Universal Flat Mounting, 40" (Drilling Required)

A One Part Solution for your Whole Fleet

ACARI Fleet Solutions has created an all in system to provide you with a complete SAE Class 1, Traffic Advisor, Work Light, and 360 mini bar for a "Drill Free" warning system.

Our Mission is to continually provide solutions to make everyday safety affordable, simple, and effective for any fleet or individual. We believe by providing a one piece, all in one solution, creates a streamlined opportunity for fleet managers to up-fit their vehicles warning system and save time and money in the process.
