X-LOCK

Only the X-Lock gives officers quick, easy, one-handed access to guns – when they are needed fast. The innovative, patent pending design features locking arms that automatically adjust to a tight, more secure fit when the gun is pressed into place.

- Stainless steel, spring-action locking arms allow for one-handed removal of gun.
- Padding protects guns and prevents rattling.
- Self-adjusting arms ratchet to tightly secure most guns.
- The lock can be opened with an electronic timer or with a key.
- Lock can be adjusted along the back plate to custom fit each make/model of gun.
- Quick installation! Can be mounted with little or no drilling.
